**HELPING
PEOPLE MOVE ON**

COPE NEWS QUARTER 1, 2020

HELPING NOUPHONE TO COMEBACK WALKING AGAIN

Nouphone is 11years old, living in Phonhaikham village, Saythany District, Vientiane capital who revived the third prosthesis leg form Center of Medical Rehabilitation that covered all accommodation and free prosthesis leg by COPE.

The accident happened when she was 6 years old on her right leg and the Doctor amputated on her right leg and her parents very worried about her because she was so sad and denied to participated in social activities with other people and thought that she could not walk again; fortunately, her neighborhood told Nouphone's parents about COPE's services when her parent heard about the services they were happy that their daughter would be able to walk again. "Now I am so happy that I can walk to school and enjoin activities with friends in the village, said Nouphone"

On behalf of Nouphone's mother, she would like to thank to who kindly supports her

daughter to able to work again.

PO REFRESHER ON TRANSFEMORAL SOCKET DESIGN.

The training on quadrilateral socket for TF prosthesis is a Polypropylene refresher course designed to review the process of casting technique, bench alignment, and fitting with some additional new techniques in order to obtain the consistency quality devices throughout the rehab Centre in Lao. In addition, the Centre could use this opportunity to deliver at least 4 prosthetic devices to clients after the training is completed.

Objective:

- To improve the clinical hand skill PO
- To standardize the manufacturing process in all Centers
- To build capacity and promote the good practice for CMR and PRC rehab Centres in delivering better quality for lower limb Trans femoral prosthetic devices in line with the quality standard indicator tools.

DONATE TO COPE

FUNDRAISING BY LODE NANDHIVAJRIN FROM THAILAND

Mr. Lode MANDHIVAJRIN visited the COPE Visitor Center last year, during the visit he learned so much at the COPE Visitor Center exhibition about people with a physical disability and UXO problem in Laos. He thinks that the work COPE carries out is very incredible and he wants to make fundraising for people with a physical disability and UXO problem in Laos.

when he black to Thailand, he wrote an article about the COPE program with content buy a leg for people with physical disabilities and UXO revival in Laos and posted on his Facebook page.

VIP VISIT AT COPE VISITOR CENTER

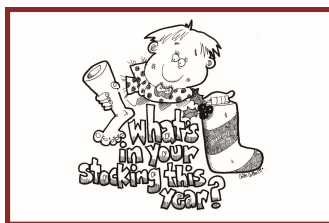

On October 30th, 2019, COPE team welcomed Ms. Ricarda Rieger, Resident Representative of the UN Development Programme (UNDP) in Lao PDR to COPE Visitor Centre to learn about how COPE supports Lao government centers to provide free prostheses, Orthoses, and rehabilitation services to UXO survivors and persons with physical disabilities in Laos. Moreover, Ms. Ricarda Rieger had also learned how prostheses and Orthoses were being made, club foot children treatment, and how UXO still continuing affected Lao people today.
